Professional Summary

.NET Backend Developer with experience in ASP.NET Core, C#, Web API, Redis, and MinIO, building scalable and secure backend systems. Skilled in REST API development, performance optimization, and dynamic data processing solutions. Passionate about designing efficient, production-ready applications and continuously improving system performance.

Experience

Programmer Analyst - .NET Developer <i>Figment Global Solutions Private Limited, Nagpur</i>	01/2025 Nagpur
- Developed and maintained GSTCPC/TaxCPC backend systems using ASP.NET Core and C#, building secure RESTful APIs for tax validation and high-volume return processing. - Implemented optimized backend logic with Redis caching, third-party API integrations, secure file processing, and MinIO-based object storage for efficient data handling. - Built reusable utility modules including fully dynamic Excel file generation and download functionality based on database responses, improving performance through async programming and supporting IIS/cloud deployments with CI/CD practices.	

Education

Master in Computer Application (MCA) G H Raison College of Engineering and Management, Nagpur	2023 – 2025 Nagpur, Maharashtra
BSC in computer science & electronics Dhote Bandhu Science College, Gondia	2019 – 2022 Gondia, Maharashtra

Skills

• .NET & ASP .NET	• MySQL
• Spring Boot	• Java
• C#	• HTML, CSS, JavaScript

Projects

AI Productivity & Analytics Platform <i>ASP.NET MySQL REST APIs AI Integration Platform</i>	01/2025 – 04/2025
- Developed a modular AI-based web application using ASP.NET and MySQL, enabling developers to integrate and extend custom AI tools, utilities, and modules within a scalable platform. - Implemented intelligent features including a Google Gemini-inspired AI assistant, automated student note generation, AI-powered PDF creation, and raw-data-to-structured-data transformation for analytics and reporting. - Designed and deployed REST APIs for AI processing, file handling, and data management, with advanced filtering and Excel/Power BI integration for explainable data visualization and decision-making.	

Certificates

Java - Coursera	PCB designing - BMOS
